Hon. Robert C. Schenck, Ohio. The Hon. Robert C. Schenck, the wall-known Whig orator, who represented the Dayton (Ohio) district in Congress, for some years and whose influence among the old line Whig that State is second to that of Tom Corwin ne, made a speech in Dayton on Satu

in whatever aspect you may, this is the leason which it teaches. If we juriter urifinas into the tield of politics and put them on regular wages, we must expect that, on the occasion of any intestine difference, our party will be torn in pieces by them. The Tammany faction, as it is sometimes called, has no right to complain, and still less right to plume itself on its regard for the proprioties and decencies or a public Assemsembly. In what happened at Syracuse it only met with a due retribution—it had its bullies on the ground, but, as it happened, they were outnumbered and overmastered by those on the other side.—N. Y. Ecc. 1 ost.

The English Government has sent an agent from Jamaica Conanda. On Wednesday evening a meeting, attended by about four hundred colored persons who reside in and adjacent to that place, was held at the Town Hall. From the Windsor Herald we learn that most of the time was occupied by Mr. Harris—who accompanies Mr. Stanley, the Government agent—in an explanatory address, relating to the man. of the time was occupied by Mr. Harris.—Who accompanies Mr. Stanley, the Government agent —in an explanatory address, relating to the nature of their business, and a general history of the Island and its facilities and adaptation for the general benefit of the African race. He exhibited a great real for their advancement and welfare, and used arguments to prove that Canada could never be for them a permanent home, while he said that he was convined that that much desired spot could only be met with in the Tropics, where the climate and productions of the country were most congenial to their nature, and in all respects favorable for their lasting abode.

the gates would be thrown open for a general emigration. The Governor of the Island guaranteed them occupations on their arrival, or a certain stiped until such should be found, and also their passage thither gratis. This undertaking is truly a generous one, and cannot be too highly appreciated, while it causot fail to be taken advantage of by such as may consult their own interest. If they succeed in getting the number required, they anticipate starting in the space of a month. A vessel will start from Windsor, calling at Rondsau and other Canadian ports. Between forty and fifty had aiready assented to go, and many at the meeting seemed to have a strong inclination but only one had courage to enlist. If this move is attended with auceess, arrangements are in contemplation for its further prosecution in the Spring.

"Industry and the Mechanic Arts," in which the following paragraph appears:

"Mr. Greeley dwelt a short time upon the relation of espital to labor. He explained his position upon the subject of "socialism," or "commulsism," and expressed the belief that the time was not yet sufficiently ripe for the realization of this dream, for which he had labored much, and secrificed much. The lime would come, however, when it would be put into practice. It might be in fifty, a hundred, or a thousand years—but the period would arrive. (On this point the audience unministably differed with the speaker. A few people applianced his conclusion; but the mass of his hearers were cold and mute.]"

RELIGIOUS INTELLIGENCE.—We learn that with great liberality the Trustees of the Reformer utch Church, corner of Monroe and Sanga streets, have kindly granted the use of the building during the absence of their pastor-Rev. J. Massu Ferris—to the Reformed Presby ner. J. Mason Ferra—to the Reformed Prebly-terian Church, whose place of worship on Ful-ton street was burned down on Thursday night last. Rev. Robt. Patterson will accordingly preach in the Dutch Church on Sabbath for-noon at 10 o'clock, on afternoon at 21 o'clock. The Seotch Sabbath School will meet there in the morning at 62 and the Potential The Section Saboata School will meet there in the morning at 95, and the Reformed Dutel Sabbath School in the afternoon at 2 o'clock The Trustees are taking prompt measures to re-build on a more convenient site before winter

THE COSMOPOLITAN BAZAR.—This attractive novelty, which has been held at Metropolitan Hall for the last eight days for the benefit of the Ministry at Large in this city, was closed last evening. The attendance was large, and every body seemed gratified by the variety of amusement which was afforced them. There was one article in the Bazar which deserves assectial mention. We refer to a piece of statusspecial mention. We refer to a piece of statua-ry, entitled the "Checker Players," which was moulded and chiseled in clay, and almost faultless in conception and execution. It was produced by the skill of John Rogers, a young engineer in the employ of S. S. Greeley, Esq., of this city, and by him presented to the Bassar. The value put upon it by the managers was \$75, and in order to give such one present a convert and or order to give such one present as convert as convert as convert.

Very many choice lots have been selected by our citrsens and associations here, and we are glad to know that the same season shis witnessed the inauguration of this noble witerprise, attests its thorough adoption by our residents as the abode of their lamented dead, to grow is beauty and holy substitutions as each year shall increase its buried treasures.

The company have opened a permanent office at No. 35 Clark sireed, and now run a appecial train to the cometery from the Chicago and Milwankee depot at 4 P. M. on Wednesday and Saturday of each week, the trip giving two hours at the cometery grounds. A favorite drive from this city will also be that along the Rosechill road, with route by Bowmanwille. A few years hence both suburban avenues will be lined with homes stong the drive which the improvements at Rosebill will make a most frequented one, as to the Mount Auburn or Greenwood of the Northwest.

force of the breakers a portion of the railroad gier and track along the lake shore was carried away, detaining the Michigan Central Railroad night express, which ran down to the gap and then brought its passengers, several hundred in number, back to the city. To she great praise of the librality of the

breaks in pier and track yesterday, and at 3 P. m. trains were passed, and are now leaving as usual. For the three points of vigilance in disovering the gap, liberality as concerns the pub

deserve high credit.

By the same gale on Monday night, in the setting back of the water at the head of the lake, considerable damage was done to the track of the Michigan Southern R. R., and near Porone side of the track gave way, landing the lo-comotive and tender in the mud by the road-side, where it was nearly buried. Fortunately side, where it was nearly buried. Fortunately the train was going vary alow, and only the baggage car followed the locomotive and tender. The engineer was injured. The Michigan Southern trains were leaving as usual last evening.

On other roads entering the city there were only slight detentions from the storm, those above noted arising from the imperious dispositions. tion of our lake Neptune to make as much dis-turbance as far inland as possible. On Monday morning the down train on the Chicago and Mil-

waukee Railroad, was thrown off the track, by a freight car, which was actually blown from side track, by the storm, across the main track. tive was considerably injured by the n the storm, this was the only harm done. On his own domain old Michigan enjoyed him-self, and got high after his own fashion to the top of his bent. It must have been an ugly night for shipping exposed. Fortunately the

in attempting to bring in the brig Stannard at the height of the gale on Monday afternoon, while laboring in the heavy sea, was disabled by parting her piston rod, the recoil breaking deserve notice. From below, however, as we had fenred, we hear of disasters. Three miles

loads of vessels exposed to the gale. It is painful to be obliged to state that the gale did not respect even the Milwaukee ferry boats to Grand Haven. One of the "sea-going

steamers" having been hardly used and coming back into Milwaukee after nine hours battling

with the waves, during which the craft eased herself by parting with her wheelbouses. Upon this point, however, the travelling public may

rest easy, as the Milwaukeeans have engaged

The Fersy Pressive College,—By such name will Stoam's Central Commercial College be known hereafter, for by such title was it known at the late United States Fair.

Indeed in all departments of sound and thorough commercial education the President has kee in a bad condition, having shifted her cargo

saw the Schooper Island Queen badly on the rocks at Point Wabbleshanks, just above the In this really grand and unequalled "Gallery-ot Peannastip," the great crowd found that which astonished as well as delighted them— the general exclamation was—"can so great a thing be done with a pen?" Neither photoerged. The latter left er is owned in Massachusetts and it is not known wheat, and fourth of grain shipped from this port, lost in this gale.

Capt. Hackett also states that as he came up
the lake he saw vast quantities of immer and
wood, bark, &c., probably lost from the deck

the general exclamation was—"can so great a thing be done with a pen?" Neither photographs, painting or glazing were brought in to help out.

The designs were of the very first order. Unique, chaste, ejegant and tasteful—and commanded the eathershaft cencomisms of thousands, who uniformly expressed their regret at not being able to remain and study their beauties. We understand, that yielding to the solicitation of our best citizens, Mr. Sloam will throw open to the public for a time his "gallery of penmanship" as soon as his enerous duties will allow him time to "pat things in order," at which time it will be announced.

The remarkable success of this Institution in all of its departments, having no specialities which is illustrated in its becoming the Pray Prantum in every department. Ornamental, a rapid, off-hand business penmanship and ladies book-keeping, the ladies course being identical with the gentlements—makes its claims for public favor just and powerful. May its success be commensurate with its worth.

Stove Work.—Stove blacked and set up at very short notice. Leave your orders with Van Schanck, 47 State street, sign of the Golden Tea Kettle.

Norice.—Hon. David Dudley Field, of New

our Mr. Copen to travel with these boats here after, through the entire winter, and give his especial attention to their weather. Positive especial attention to their weather. Positive orders have also been given to ship no seas hoa? ever may be the exigency. Seriously, the first touch of Lake Michigan in his fall irolics must have dispelled the illusion of any unlucky wight taken in by the idea of "cecan steamships" on Tea Kettle.

Norice.—Hon. David Dudley Field, of New York, will deliver the introductory Lectors

York, will deliver the introductory Lecture on the occasion of the opening of the Law School of the University of Chicago, at Metropolitian Hall, on Wednesday evening, September 11st, at 74 o'clock.

The Bar, and public generally, are invited to be present.

Thos. Daumonn,
President of Board.

E. B. McCago, Secretary. this lake.
Yesterday at nightfall there were in the offing fifteen or twenty vessels, two of them with flags at half-mast. The Schooner Eli Bates had lost her fore boom and boat.

First PREMIUM Trunks, Values and Traveling Bags, of United States and Illinois State Fairs. Call and see them at W. & G. S. Warone's THE LAW SCHOOL OF THE CHICAGO UNIVERSITY The LAW SCHOOL OF THE CHICAGO UNIVERSITY IXACURAR EXPRENENT.—It is already known to many of our readers that the Law School of the Chicago University is a fixed fact, thanks to the exertious of gentlemen, high in the legal profession in our city, and hence the most thorse201w Trunk Store, 61 Clark street.

Sc201w Trunk Store, 61 Clark street.

Untered States Fair.—The Silver Menal Stryes.—The Sand Oven Economist Cooking Store has received at the late exhibition in this city, the Lange Silver Medal, it being the highest prize. This has been obtained in contest with several of the best stores in the country. The public will sanction the judgment of the committee. We believe that this stove combines more desirable qualities than any other. The large sale already achieved in this city, will now be rapidly increased. No one in want of a good stove will fail to examine it.

The "Blasing Stare" Smoke and Gas Burner, for the use of Hidnois Coal, is an elegant stove for parlors, halls, stores, de. This also received the first prize. It is a continuous burner. The fire only requires to be made once during the season. It is a self-feeder, and not one quarter the trouble to manage as other stoves. It only requires to be known to be generally adopted. The "Syan or wis Norty" heating stove for hard coal has taken several premiums at former fairs. It is a genuine gas burner, and has attained a great popularity both here and as the East.

It is doubtful if three better stoves can be found in the world. They are manufactured by the well-known irm of W. a.J. Treadwel, Perry & Norton, Albany, X. Y., and for sale at retaillin this city by those reliable dealers, A. & & G. H. Miller, No. 237 State street, and A. F. Beeker, No. 296 Randolph street. Call and see them. protesson in or evy, and nece the most tor-oughly alive to and aware of the value of such an institution as is now to be inaugurated, at once in keeping high the standard, of the legal frasernity of the morthwest, and affording the best means of solid and intellectual advancement of, young disciples at the feet of Black-stone and My Lord Coke. It is not always a dead-sure thing that the tyro will equal his mas-ter, because that master has a practice of many thousands, and more repute, per annoim. On the contrary, reading law in a busy law-office withous stated and complex instruction. the contrary, reading law in a busy law-office without stated and regular instruction, is like taking your solitary voyage is a yawl-boat, with your own sculling, among a first-rate fleet of well appointed three-deckers. It has made a great many good lawyers, but all have later confessed that much time was lost to their neo-phyte career, by lack of instruction.

The Law School comes in to take these incip-

int twigs of the law by the hand, and Prof. Henry Booth, the Principal professor of the Chicago Law School, is just the pilot and sail-ing master the student will prize and value. With such a choice in Professor as Mr. Booth, the Board of the Law School have secured a the Board of the Law School have secured a suppress in this department, which promiss all hoped from it. Professor Booth having prepared the circular fixing the opening of the School on the 21st day of September, the Hon. David Buddey Field, of New York, will deliver

Gas Fixrouss. The best stock in the city, ond richest patterns, can be found at our above room, 47 and 49 State street, up stairs.

Company now offer their superior machine purchasers at reduced prices at their sple salesrooms, 115 Lake street, near Clark. the United States Courts are at present held, will bring the practice in all the Courts immediately under the potice of the students for present observation and comment. Judge D. V. Ball holding the appointment of Professor of Commercial Science in the University, will, from his interest in its success, be the means of the court of the court

BY TELEGRAPH.

securing the attendance of many commercial attendents upon the law examinations, with a view to a more fhorough preparation in the principles of Commercial Law.

It adds strength to the Board of instructors that Hon, Judges John M. Wilson and Grant Goodrich of the Superior Court are enrolled ampag the professors. The School will be organized to-mercow morning at the Commercial College Rooms as above.

A Challenge

Goodrich of the Superior Court are scrolled anipog the professors. The School will be organized to-mercow morning at the Commercial College Rooms as above.

A Challenge
In answer to the challenge of Mr. Moore, or the friends of England of England for Line Cook.

Concaso, Sept. 39, 1509,

I do not think Mr. Moore, or the friends of Reindeer would have made the challenge they did in yesterday aftermoon's Journal, to trot the Cook for \$5,000, if they had not known that had made arrangements for my horse like Cook to leare the city. Now, to test whether they were in earnest, or wanted to "blow altitle," I will make the following offer.

The Cook will be in this city, Chicago, this week; in St Louis, next week; the following week in Cincinnati; the following in Kulamazoo, Mich, the following in Philadelphia; the following in New York city. I will aret the Cook against Reindeer in either of the above named places, for (\$4,000, three thousand dollars, half forfeit, to wegons or to harpoas, and Reindeer's party may select, "rain or shime"—according to Long. Island "rules," "play or pay "—or half forfeit." The winning horse to take whatever gate money the proprietors of the track may give him.

If the above is accepted by any of the Ecia.

St. Levis, Sept. 90.—The Overland Mail the Stat has the State of the Act, and was maintered to candles, provisions, de., and was maintere deer party, or others, please call at the Tremont Exchange, Chicago, put up the symptoms, and name which of the places you will trot is, as my money is there for that purpose. H. Graves.

Pyrk.—\$17.50@18.00 for mess, and \$20.00 for clear.
Bacou—124@13c.
Lard—10@14c.
A moderate amount of goods is going into the interior.
325,000 California 7 per cent bonds had been reduced by the State at \$53. Overland emigration continued to pour in. Much suffering was reported on the plains among the broken down rike 's Peakers. A large number of emigrants were stopping at Walker's River and other gold diggings cant of the Sterra Nevads.
The town of Marphy's was nearly destroyed by fire on the 21st ut. Lossatzie at \$100,000.
Honolutu, July 30.—The American bark-laneaster, of Philadelphia, as route to Australia, with a cargo of rice valued at \$25,000, foundered off Malekai July Joth. The vessel and cargo were a total loss, but fully insured. No lives were lets. Moticing an editorial in this morning's issue of the Passs and Transva, according to G. H. Harleton, Esq., the merit of having been the first to place boards in a vertical position in front of lumber piles for protecting them on the night of the great fire, I take this means of contradicting the statement and giving the honor to whom it is due. Mr. John Hoyd, of the firm of Murphy & Boyd, was the first to suggest the above means of protecting the lumber, and Mr. Murphy was the first to execute it, as can be groved by mnry who were present. Boards were first placed in front of Ryerson, Miller & Co. 's lumber. The idea may be original with Mr. Hazleton, but it was preconceived and put into execution by the above gentlemen. Asy great discovery is not claimed for Mr. Boyd, but nevertheless since you have made it the subject. Kangaros and Occan Associated as 25,00,000.

The receipts of the New York Central Road for Septemiember are expected to reach \$750,000—an Increase of \$100,000 over same month in last year.

A fire occurred on board the steamboat John Baron, near Green Point, about 4 o'clock this A.M., resulting in the destruction of the boat. evertheless since you have made it the sub-f an editorial, justice to him prompts me ay this much in his defence. TEAL

Go to John Jones & Co., 119 Dearborn

If you can't afford a new coat take you old one to Cook & McLain's Steam Dyeing born street. They will return it to you looking as well in every respect as a new cost, and at only a small part of the cost. The issuites have not of course, forgotten No. 133 Clark street, in case they have any soiled or faded garments to be cleaned or dyed.

Both are mistaken. It is supposed by

note are mistacen. It is supposed by rome that he keeps fine goods exclusively, and by others, that he is on the opposite extreme. Both are mistaken. Tappen takes in the entire range of the trade in clothing, ready made or to order in every grade or style of goods, and at picces so low us to place competition at defiance.

European news in a vance of the report to the Associated Press, the Judge this morning positively refused to grant the motion, but per-mitted the speculators to proceed, if they pleas-ed to do so, as in ordinary cases of bills in

equity.

The Arabia at Halifax—The Nova Scotia Telegraph Blacklegs.

SACRYILLE, N. B., Sept. 20.—The Royal Mail ateamship Arabia, Capt. Stone, from Liverpool on the 10th inst, is understood to have been signaled off Halifax at 4 o'clock this afternoon. The Nova Scotia Telegraph line having closed without forwarding the regular press reports, we are compelled to await the arrival of the horse express with the news, which will be due at this place at an early hour to morrow morating.

and associates. Treating to re-organi pany, who will elect Edgar Thom, dent, unite with the El Paso, and c construction of the road.

The Great Eastern.
New Yors, Sept. 20.—A letter from the Horald's London correspondent states that on the arrival of the Great Eastern, Capt. Comstock former commander of the steamer Eatiet, will saumer the command and bring her to this city. PRILADELPHIA, Sept. 20.—Judge McCandiess, of the United States Circuit Court, delivered an opinion to-day in the important railroad bend case of Oirichs & Co., European bankers, vs. the city of Pittsburgh, deciding against the city and directing the U.S. Marshal to proceed with the sale of the stocks held by the city in the Pittsburgh Gas Works.

Another Fire in Cairo.

Prom New Hampshire, CONCORD, N. H., Sept. 20.—The Governor and State Council have nominated Samuel D. Bellor of Manchester, as Chief Justice, and H. A. Bel lows and Chas. Doc, as Assistants in the Su preme Judicial Court.

The Ohio State Fair. Zaxesville, Sept. 20.—Slight occasional showers all day. Much more stock on exhibi-tion than at any previous fair. Large show of horses. The city is fast filing up with stran-gers. Weather clearing up.

From Santa Fe. Sr. Lohrs, Sept. 20.—The Santa Fe mail with dates to the 5th reached Independence this P. M. A great amount of rain had fallen on the plains. The Congressional election was held on the day the mail left. A correspondent says that there is no doubt of Alleros' election.

The Steamer Nova Scotian.

point of his neighbors,—on the part of an out Southern statesman. If Mr. Bates inself even more nearly in harmony with Republican principles. Both these gentlemen neede the right of Congress to exclude also-fa. In the Territories. Both, we believe, that the framers of the Con

dels upon which others would be constructed general use among the agriculturists of West; and the recent trials in the State, Presport and Chicago, have convinced us at not only Fawkes but his competitors have empted the machines that will never pass o commence at though their perfection should universally acknowledged. We take it that Tow which requires an engine shop to house a professed engineer to runit, and, to begin th, the worth of a good farm to buy it, is not want which the farmers of the West mest want which the farmers of the West mest worthed the farmers of the West mest want which the farmers of the West mest worthed the farmers of the West mest worthed the farmers of the West mest want which the farmers of the West mest worthed the farmers of the West mest want which the farmers of the West mest worthed the farmers of the farmers of the farmers of the late Democrafic State.

on, we must speak of steam only as one of the possibilities WEDNESDAY, SEPTEMBER 21, 1869 ons before us relative to the rival machines, the pith of which is nothing more than to rebla guessing. We shall be god at any time to publish the result of any trials with these plows or any others; but we must decline all conjecture however shrewd.

the great stumbling block in the way of the souldenent which Italy desires, and which all Europe would gladly accept; and there is not that ourage and vigor among the governments. plane on which he belongs. Their failure to do this thing, and his pious obstinacy, may compel his subjects and their brethren, the people of the Peniusula, to act. For that the world waits. Menutirle he is teaching anew,

caused a cart load or so of speeches, to which the frank of John Coovde of Pennsylvania, was affixed by a clerk employed for the purpose, to be thrown out of the mails. That of ficial did his duty and nothing more; and if he does not continue that same consorship over this wrongful exercise of the franking privilege, no matter who is incommoded thereby, he will deserve impeachment. We trust that the abures to which that privilege leads will continue to be uprovided and exposed; and that the abures to which that privilege leads will continue to be uprovided and exposed; and that the abures to which that privilege leads will continue to be uprovided and exposed; and that the abures to which that privilege leads will continue to be uprovided and exposed; and that the abures to which that privilege leads will continue to be uprovided and exposed; and that the abures of the first privilege leads will continue to be uprovided and exposed; and that the abures of the first privilege leads will continue to be uprovided and exposed; and that the abures of the first privilege leads will continue to be uprovided and exposed; and that the abures of the first privilege leads will continue to be uprovided and exposed; and that the abures of the first privilege leads will continue to be uprovided and exposed; and that the abures of the first privilege leads will continue to be uprovided and exposed; and that the abures are abured to be upon the first privilege leads will be abured to be upon the first privilege. newspaper press will warmly applied all of-torts is that direction. Sconer or later the peotorts is that direction. Sooner or later the people will see that their interest lies in the abolition of the privilege altogether. Let them, meanwhile, took to it that what is denied to Republicans is not pormitted to Democrats. The telegraph tells us that Judge Black is franking his reply to Douglas' patent-right essay in Harper's Magazina, all over the country, by thousands. He is not empowered to do any such thing. He is just as cutpable as Covode's clerk; and as he, the law officer of the government, does or ought to know that he is

We commend to any of our readers who have been bitten by the absurd notion that I fr

master General to make an example also dhim. Let us have the good old rule applied:

A Portrait.

editor could draw as good an one or hincome. Linceln did of the editor, when he charged him with being a liar, he would be employed to car y out his own suggestion.

If the Times wants to got out an edition of "Liscola on Douglas," for circulation in the cotton fields and rice awamps of the South, it can do so at its own expense, or it may accept our proposition to print an edition jointly,—its share for a Southern and our's for a Northern market. A Good Indication.

The Ohio Democratic papers are synsing Sensier Trumbull since his Cleveland speech with all the rancor, though without the truth, employed in the abuse of such other. He ared at the heap, and hit what he simed st. House FAIR IN BOSTON. -A Pational horse ir is announced to be held in that city on aday, Oct. 4th, to cont anue two weeks. It

LINCOLN AT CINCINNATI.

is not saited to stave labor, and therefore you have constitut one and laws against it.

Let us attend to that argument for a little while and see if it be sound. You do not raise sugar cane.—(exc ept the new fashioned sugar caue, and you wo. 'It raise that long' they do raise it in Louisia us. You don't raise it in Olio because you c sa't raise it profitably, because the climate do u't suit it. (Here again the cannon inferrant ed. Its report was followed by another fall of window glass.) They do raise it in Louisians because there it is pro-

cause the climate do a't suit it. (Here again the cannon inferrapt ed. Its report was followed by another fall of window glass.) They do raises it in Louisians because there it is profitable. Now, Douglas will tell you that is precisely the alwary question. That they do have alaves there because it is profitable, and you don't have them here because it is not profitable. If that is so, then at leads so dealing with the one precisely as with the other. Is there then anything in the Can situation or laws of Ohio against raising sugar cane? Have you found it necessary to put any such provision in your law? Surely not! An man desires to raise sagar cane in Ohio, but, if any man did desire to do as, you would say it was atyramid-cal law that forbade his doin 2 so, and whenever your minds are brought to adopt his argument, as surely you will have reached the conclusion, that although salvery is not profitable in Ohio, if any man wants it, it is a wron ig to him not to let him have it.

The CHANGE IN FIVE XXARS. THE CHANGES IN PIVE TRANS.

based the negro from the condition of a man of some tort, and assigned to him the condition of a brute. Now, you Kentuckinns ought to give Doughs credit for that. That is the largest possible strick that can be made in regard to the perpetuation of your thing of slavery. A voice—"Speak to Ohie men, and not to Kentuckinns!"

Mr. Lincoln—I beg. permission to speak as I please. [Laughter.]

THE HIMLE THEORY.

is right in your State over the Oho river, and hence to asy that that which is right there is not wrong he re, (at this moment the cannon was fired, to the great injury of sundry panes of glass is the ricinity,) and that all laws and constitutions here, recognizing it as being wrong are themse, 'res wrong, and ought to be repealed and abrogat ed. He will tell you, men of Ohio, that if you choose here to have laws against them, that it is in e-mformity to the idea that your climate is no a ted to it, that your climate is no a ted to it, that your climate is no at the total that your climate is no the total that the state is not saited to stave labor, and therefore you have constitut one and laws against it.

Let us attend to that argument for a little white and see if the somula. You do not raise sugar cane—(ext. ept the new fashioned sugar own to published at the time, and they expected it would be abolished,

A Police Officer Shot in St. Louis,
At half-past two o'clock yesterday morning two pistol shots were heard on Tenth street, in the neighborhood of Market. It was then ascertained that Policeman James Plynn had been shot, and Sergeant Julius Sauer fired at by an unknown man, who had made good his escape.

Fivus's version of the affair is substatially as follows: He was in company with the Sergeant of his district, at the corner of Tenth and Market Streets, when two men, each carrying carpet sacks, passed near them. Their appearance at so early an hour in the morning, created distrust in the mind of Sergeant Sauer, and he hailed to them to stop. One of them shood still, but the other, dropping his carpet sack, ran down Tenth street in the direction of Walnut, where he passed into an alley. Officer Flynn's suspiceous were thus increased, and he at once gave chase, taking a circuitious course, in order to bead the fugitive off. Flynn and Sauer came up to him about the same time, and the former was in the act of advancing with outstretched haud to take hold of him, when (at a distance of about two yards) the main shot Flynn, and soon afferwards leveled his weapon and fired at Sauer. The latter had a pistol, but probably from lossing his presence of intiod, did not return the fire. The assauling party then went away, though not at a very fast gait. Saner afterwards started in pursuit of the man but failed to overtake him. Flynn, with assistance, was able to walk to Littell's drug store, where his wounds were dressed.

We called to see the wounded officer late yesterday afternoon, at his residence on Car street, near Righth. He was lying on a lounge, conversing with some enghous who had dropped in. His condition at the time of our visit was quite comfortable, his pulse regular and nearly faft, and his general appearance indicative of little dance as to "vide a care." time, and they expected it would be abolished owing to public sentiment, before that time, and they put that provision in, in order that is should not be abolished before that time, for reasons which I suppose they thought to be sound ones, but which I will not now try to enumerate before you.

But while they expected the slave-trade would be abolished at that time, they expected that the appread of slavery into the new Territories should be restricted. It is an easy to prove that the framers of the Constitution of the United States expected that slavery should be prohibited from extending into the new Territories, as it is to prove that it was expected that the slave-trade should be shollished. One was no more expected that they have trade should be shollished. One was no more a compromise of the Constitution than the other. There was nothing said in the Constitution in re-

which you and I differ.

THE CHANGE IF FIVE Y. V. R.S.

In this connection let me ask your attention to another thing. I believe it is a fee to assert that five years ago, no living mus upon this subject had expressed the opinion that the negro had no share in the Declaration of Independence. If there is in this large suit, of living man had expressed the opinion that the negro had no share in the Declaration of the pendesce. Let me state that signify, the strong country of the pendesce. Let me state that again; five years ago, not riving man had expressed the opinion that the negro had no share in the Declaration of Independence. If there is in this large suit, the strong that the support of the said less than that, be would lose the him now or at any subsequent time to show it.

If that be true I wish you then to note the next fact; that within the space of size, years. Senator Donglas, in the argument of this question, has got his extre party, so far as I know, without exception, to join in saying that the negro has no share in the Declaration of Independence. If there he now it all the pendence of the pendence of the constitution, and the time of the pendence of the repeal of the constitution of Independence, if there is not him the space of ranging the Northerra Notate to your support. Really, what you would push him to do would take from him his entire power to share your provings. It is a complete that the power of size, years as a law, without exception, to join in saying that the negro has no share in the Declaration of Independence. If there he now it all the pendence of the pe

Bed Showing for St. Louis County.

[From the Missour Democrat]

A few days ago we gave a statement of the inbilities of the county for the ensuing year, by which it appeared that the county required upwards of 244,000 for next year a interest and principal on its debt, over and above the sum demaded for the present year. We live give, in another column, a statement of the disbursements of the County Treasury, from the first of January to last Staterday, embracing the items cashed for all county, a shot and read purposes for that period. It foots up \$567,849; and when we add to this expenditure for eight months and seventeen days, the former waterment of the sum paid thus far for interest and principal on bonds, (200,445.), it appears that the actual disbursement of each since the commencement of the year, from the ireasury of the country, reaches the enormous aggregate of seven handered and seventy thousand two hundred and ninety-four dollars! It is enough to make the heart of every text payer quarke with fear. At this rate we shall pay for the county government for twelve mothis, speared of one million of dollars, and yet we have beard it estimated by competent ambority—a output in a former article, that next year an additional sum of two hundred and forty-four thousand dollars will be required to meet our access in liabilities and provide for the payment of maturing bonds. To further competitive our financial difficulties, we have beard it estimated by competent ambority—a other, affect, than the County Treasure—that there will be a definite on the expenditures, and without a reduction of the expenditures, and without a reduction of the expenditure, and without a reduction of the expenditure. ready to have his services in time of having him safe. (Applease and lampher.)

EXPRIENDLY LEGISLATION.

But you remember and set down to Judge Douglas delit, or discredit, that he has said Douglas that the people of the Territories can, what is it to exclude? Why, it is to dero it out. It is in some way to put it out of the Territory. It is to force it errors the inic, or change its character, so that is properly it in our of the tot of existence. But what is the convolution of Wars other properly it is to force it. The out of existence. But what is the convolution of Wars other properly if a list the same thing as also a force the convolution of the face. Our boye is in the speech less than an other properly if I still the same thing as also in the face. Our boye is in the speech less than a convolution of practical convolution, as early

good bargain, and breaking faith and violating good bargain, and breaking faith and violating bimself, that in his di, hast year, he had be proay, as he dested that if he only is proay, as he dested that if he only is proay as he dested that if he only is an individual engaged in the same demoralising and unjustifiable process of trading and trafficking—a mode of transacting business which no honest man in private life would attempt, and which none of any sort would be tolerated in the content of that but. That brought to Washing or of the par exc. How the property is to "squelch" out for than that. That brought to Washing or of the par exc. How and the property of a desire sound free, not when known to entertain country shall become expressed by that of carries and the second to the many statement of the proposition as preceding from an afficiently spirit to our present Union, and a desire to break up the bonds of brotherhood by which we are comented; and I have turned a deaf ear to their arguments, and paid no respect to their advocates.

The institution of slavery where it exists was never in less danger of interruption than at precent, and those who are moist and fussy in their complaints, are the very people who have had control of the Government and fussy in their complaints, are the very people who have had control of the Government and fussy in their complaints, are the very people who have had control of the Government and fussy in their complaints, are the very people who have had control of the Government and fussy in their complaints, are the very people who have had control of the Government and fussy in their complaints, are the very people who have had control of the Government and fussy to the right of property where it lawfully and constitution, looking only to the lack for protection of the structs, I treat as I do of that by the election of the surface of the control, and the proposition of the structs, I treat as I do of the surface of the control, and the proposition of the structs, I treat

Beal Catate

An experiment in scientific ballooning, great-rethan has yet been undertaken, is about to be ried in this city. The project of crossing the titantic ocean with an air-abip, long talked of ut never accomplished, has taken a shape so einite that the apparatus is aiready prepared and the stromant ready to undertake his task. Whether successful or not, the enterprise near-ta-mention from its magnitude, and the energy and fertility of resource displayed in its prosession.

The work has been conducted quietly, in the immediate vicinity of New York since the opening of spring. The new six-ship, which has been christened the "City of New York," is so nearly completed that but few essentials of detail are wanting to enable the projectors to bring it wishly before the public.

ore dwith a peculiar varnish, the invention fir. Lowe.
It shows and yards of twilled cloth have been d in the construction of the envelope. Redot feet, the actual measurement of this terial is 54,000 feet, or nearly eleven miles. enteen of Wheeler & Wilson's sowing manes have been employed to connect the cas, and the upper extremity of the envel-, intended to receive the gas-valve, is of pie thickness, strengthened with heavy brown en, and sewed in triple seams. The pressureing greatest at this point, extraordinary powof resistance is requisite. It is asserted that chundred women, sewing constantly for two ark, could not have accomplished this work, inch measures by miles. The material is shout, dt he stitching stouter. The varnish applied to this envelope is a committion, the secret of which rests with Mr. owe. Three or four coatings are applied, in der to prevent leakage of the gas. Mr. Lowe daily engagad in the personal superintendence of the process of manufacture. We found himstrands hand at work in an open field, seside

daily engagad in the personal superintendence the process of manufacture. We found his sterday hard at work in an open field, assidu ally testing the progress of certain gallons or villainously-smelling compound, which boile trickully at a temperature of 600 degrees. The netting which surrounds the ouvelope is stout cord, manufactured from flax, expressly at the purpose. Its aggregate strength is equa-torial a resistance of 160 tons; each cord being ca-able of sustaining a weight of four or five hun-red pounds.

rable of sustaining a weight of four or five hunfred pounds.

The basket which is to be suspended immediately below the balloon is made of rattan, is
it feet in circumference, and 4 feet deep. Its
form is circumference, and 4 feet deep. Its
form is circumference, and vertical feet and the feet in circumference, and surrounded by canvas.
This car will carry the aeronauts. It is warmed by a limestone stove, an invention of Mr.
G. A. Gager, by whom it was presented to Mr.
Lowe. A lime-stove is a new feature in air
voyages. It is claimed that it will furnish heat
without fire, and is intended for a warming apparatus only. The stove is 1 feet high, and is
feet square. Mr. Lowe states that he is so well
convinced of the utility of this contrivance that
he conceives it to be possible to ascend to a region where water will freeze, and yet keep himself from freezing. This experiment is to be
tested.

e Eo kstore of S. C. GRIGGS & CO., and take ye friends, to see that sted.

Dropping below the basket is a metallic lifeout, in which is placed an Ericsson engine,
apt. Ericsson's invention is therefore to be
ried in mid-air. Its particular purpose is the
outrol of a propeller, rigged upon the princiele of the acrew, by which it is proposed to obain a regulating power. The application of the
necharical power is ingeniously dayled. The als in something more than "CORNER LOTS" as PAPER CITLES, and remember that S THE PLACE TO BUY BOOKS. ces, the air-ship can be readily raise owered, to seek different currents of air; that they will give him ample steerage-may, and that they will prevent the rotary motion of the machine. In applying the principle of the fan, he does not claus any new discovery, but any left of the control of the con

Walking on the Water.

If Fromthe Toronto Globs, 19th J.

The announcement, although made by a well-known resident of Toronto, that he had invented an apparatus whereby he was enabled to walk upon the water, was received with some sention. Since then, in the presence of saveral members of the press, Mr. Hickock has given syidence of his ability to do all that he promised, On Saturday aftersion, the party invited proceeded to the Bon Stasion, with some amount of doubt upon their minds as to the result of the trial. None of them expected that Mr. Hickok would travel at a great speed, or that his new tangled investous would enable him to dance to the music of the waves, had shere been any wheresish to dance to. But on arriving at

dance to the music of the waves, had there bee any where with to dance to. But on arriving a the spot indicated, the best possible evidenc vas furnished that it would enable bim it was furnished that it would enable bim it was the constant of the second of the second siddle of the Don, making his way against the current which at this place runs ther quickly? He soon neared the party, and hen within speaking distance, turned round the the greatest possible case. He had in his and a small pole, soarcely large chough to af-red him any assistance, so far as preserving balance was concerned. That he could do thout it was noon proved, for he threw it from or receiving in lieu thereof, from a man who umparted him in a boat, a waking state of linary site. He compares the

BOOTS AND SHOES. FOR THE FALL TRADE, 1859. BOOTS AND SHOES.

Work of the Best Quality, VORABLE TERMS AND AT LOW PRIS with New York or Boston Job NO. 28. LAKE STREET. NO. 28.

SOMETHING NEW!!! Metallic-Tipped Boot and Shoe Don Carlos Rivas, who is now Lozada's military chef. His band, augmented to eighty men, at-tacked the village of Santiago, which contained three thousand inhabitants; when he sarprised the town, the inhabitants fled, with the excep-THE "METALLIC TIP"

three thousand inhabitants; when he surprised the town, the inhabitants fied, with the exception of a few men, who smade a stand in a strongly built house, and who at last succeded in driving all the robbess out.

"The whole district of Tepie became alarmed, and the terror was not decreased when a few days after he attacked the village of Rosa Morada, on the borders of the State of Jalisco, when he burned all the houses, and did not cease to destroy the people until all were fied to the mountains. Gen. Blanco was at that time Governor of Sinalos, but he made no movement ty arrest the bandits. San Blas was twice visited by the robbers, and the inhabitants only saved themselves by flight to the shipping in the barbor. At last the public appeal for asfety reached Guadaisjars, and a column of 300 men was sent to put an end to the confusion and robbery. Col. Lieras, its commander, sitacked the mountain stronghold of Lorada, and counted himself victorious because he took eleven of the robbers prisoners. Lozada fied, but immediately after he recruited his force up to one hundred and fifty men, and threstened Tepie with its twelve thousand souls.

"The alarm spread in every direction. All classes took uparms, and a force of two thousand men took the field. They had no flag, for at that time the republic was struggling between the clurrch and the liberals, and Commonfort had just cut away. Jalisco pronounced in favor of Juarez, and Tepie, if its extremity of danger from the theires, unfuried the liberal bauner. Lozada, almost caught in the tails, retreated, joined the conservatives, hung out the flag of the church, and thus became a soldier of lie nation. He is known as 'The Tiger of Aines, and his reputation has not improved since he naturalized himself. He is now a whist of pelice in the capital, under the command of Gen Legrado. MESSES.
